

**Our client, a well-known large scale fabric manufacturer engaged in Knitting, Dyeing, Finishing of fabric, and Brushing, Peach finishing and Printing - Rotary and digital/sublimation; is on the lookout for a dynamic and results driven professional to join their team.**

## **Senior General Manager - Production**

Reporting to the Managing Director/CEO, the selected candidate will be a member of the Senior Management Team. This is a pivotal position which requires excellent knowledge and experience in the basic process of dyeing, finishing, yarn types, dyes and chemicals, recipe formulations etc.

### **Key Responsibilities include:**

- The main component of the job responsibilities will be to ensure that the daily output will be achieved with the right quality and with minimum re-work.
- This means, co-ordination with all departments including Marketing will be required.
- Your ability to multi-task, manage KPIs and most importantly manage the shop-floor machine operators will be required to ensure that no lapses occur to impact quality, delivery and re-work.

### **Candidate Profile:**

- Educational qualifications such as a BSc in Textile/Chemistry will be advantageous.
- A proven track record of managing the production environment in a similar industry is essential.
- Planning and organisation skills to be able to run and monitor the production process.
- The ability to act decisively and solve staff or equipment-related problems.
- The capacity to grasp concepts easily.
- Attention to detail to ensure high levels of quality.
- The ability to communicate clearly and persuasively with your team, managers and clients.
- The ability to work under pressure and motivate others to meet deadlines.

**An attractive and negotiable remuneration package with other fringe benefits will be offered based on qualifications, experience and competence.**
